All day Visit to Aigina Island (complimentary)

Aegina (Aigina, Egina, Egine, Ägina) is located 26 km / 16 miles below Athens, is part of the Saronic islands group and can easily be reached within 40 minutes from Piraeus.
Aegina is a place of rich history. The Temple of Aphaia is arguably the jewel in the crown of Aegina island.
Aegina is the island of the pistachio nuts. They are called in Greek: “Fistikia”.

Do not forget your sunscreen, swimming suit and hat!!!
The International Association of Cultural and Digital Tourism (IACuDiT) is a global network of people, projects and events that bear on a wide range of issues of concern and interest in cultural and digital tourism, in an era of major global changes. IACuDiT is a nonprofit international association which values creative, ethical and progressive action aimed at the improvement of global hospitality and tourism research on cultural and digital issues.

The International Association of Cultural and Digital Tourism brings together a wide range of academics and industry practitioners from cultural, heritage, communication and innovational tourism backgrounds and interests. It mainly promotes and sponsors discussion, knowledge-sharing and close cooperation among scholars, researchers, policy makers and tourism professionals. It is based on the notion that: “Technological changes do not influence the missions of cultural tourism actors in the areas of promotion and product development, but rather the manner of carrying them out.” It provides its members with a timely, interactive and international platform to meet, discuss and debate cultural, heritage and other tourism issues that will affect the future direction of hospitality and tourism research and practice in a digital and innovational era.

Its mission is to contribute to the paradigm changes needed, in order to achieve cultural tourism development on all levels, as the digital era suggests new possibilities and creates exciting horizons for future conversations with persons from a wide variety of national and international settings. For achieving our goals, we participate in European Union funded research projects in order to be at the forefront of scientific knowledge.
